

Ensuring a Seamless Transition

- ❖ We are honored to welcome all veterans and military service members who have recently returned from serving during our current combat operations such as Operation Enduring Freedom (OEF), Operation Iraqi Freedom (OIF) and Operation New Dawn (OND).
 - ❖ We are committed to helping make each service member's transition from active duty military status to civilian life as smooth and seamless as possible.
- The VA provides combat veterans with the opportunity free dental for 180 days post discharge from a deployment area if the process is started before the 180 expires. If dental care was given 3 months prior to being demobilized then this does not apply.
- ❖ The VA provides combat veterans with free health care for conditions potentially related to their combat service for up to five years following their separation from active duty. At the end of the five-year period, veterans will retain enrollment eligibility. Co-pay status will be determined based on individual circumstances.

John Cochran VAMC

WELCOME HOME VETERANS *Now it is VA's Turn to Serve*

Jefferson Barracks VAMC

Eligibility

- The primary factor in determining basic eligibility for VA benefits is "veteran status."
- ❖ Active duty in the Armed Forces with a discharge or release from active service under conditions other than dishonorable conditions establishes veteran status
 - ❖ Reservist or National Guard members can establish eligibility for VA healthcare benefits only if the President activated them for federal duty.
 - ❖ Reservists who are never called to active duty may qualify for some benefits through the Veterans Benefits Administration (VBA).

Online Enrollment

In order to receive health care benefits a veteran must enroll. You may enroll online at the VA site: www.va.gov. Click on the "Health" icon. Next, click "Returning Service Members." Then locate To apply for health benefits online." This will open the electronic application for VA 10-10EZ.
